

An Advanced DIN/EN-Certified Anchored System.

- Designed to take the rigors of today's heavily-used facilities
- Anchored substrate/continuous channel option
- Consistent play and ball rebound
- Greater internal control and expansion/contraction characteristics
- Versatile applications

Horner MFMA Maple
CRP channel
Pre-engineered subfloor
7/16" ECO™ pad or
optional SAFE™ pad

optional SAFE pad

Field houses, competition and multipurpose
gymnasiums, collegiate, secondary schools
and heavy-use facilities.

PERFORMANCE

CRP is a fully DIN/EN Certified system
DIN18032-Part II/EN 1490-2006

PERFORMANCE CHARACTERISTICS

- Shock Absorption ✓
- Vertical Deflection ✓
- Area of Deflection ✓
- Ball Bounce ✓
- Surface Friction [Coefficient of Friction/Sliding Coefficient] ✓
- Rolling Load ✓

SPECIFICATIONS

System Thickness*/Pad Options

- 25/32" MFMA Horner Maple:
 - 2 5/16" Floor using 7/16" ECO Pad
 - 2 1/2" Floor using 3/4" SAFE Pad
- 33/32 MFMA Horner Maple: Add 1/4"

*System thickness is equivalent to slab depression for new facilities.

MATERIALS

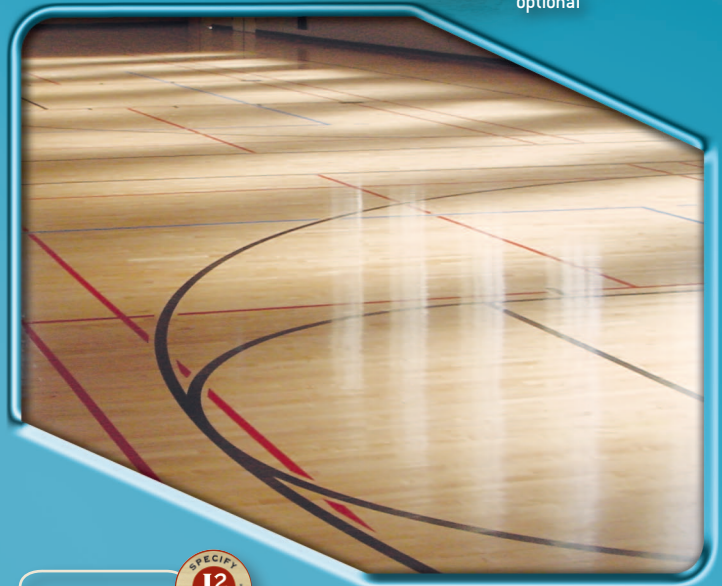

- Option: Specify Horner LongLife™ Maple 
- Subfloor: 15/32" rated manufactured panel or 7/16" OSB subfloor
- 16-gauge steel CRP restraints with concrete anchors
- Concrete fastener/anchor
- 7/16" ECO pad. Option: 7/16" or 3/4" SAFE pad
- Vapor retarder

GREEN/LEED OPTIONS

- FSC Maple Flooring MRC 7
- FSC Subfloor Components MRC 7 Exemplary Performance
- Recycled ECO Pads MRC 4.1 & MRC 4.2

SPECIFY 

For extended wear life, choose **Long Life™**. Horner's **Long Life™** flooring is 25/32" northern hard maple with the same wear depth as 33/32" flooring. **Long Life™** provides the ecological, cost savings and availability benefits of a 25/32" floor, with extended wear life. More re-sands, stronger system and economical. Why not value engineer?

HORNER FLOORING is the leading manufacturer of athletic flooring systems used in high-school gyms, college and professional arenas, and public and private training facilities.
